

PVC FLOOR SINK

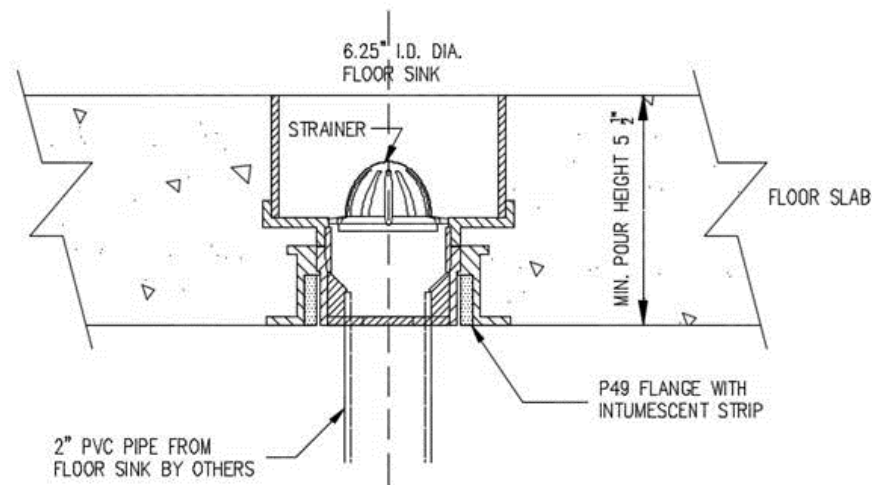

THRU CONCRETE ON WOOD OR STEEL FORMS

Use For Above Ground Floor Sink Fits into minimum 5-1/2" floor

Firestopped

Nail the floor sink flange to the deck at the proper location; there are 90 degree lines on the flange to line up exact location. Solvent cement the top portion to the base to fit the pour height. After the pour connect the PVC piping to the bottom PVC socket, remove the protective cap and set the dome strainer to finish the installation.
