

It's the new clean modern way:

Stub-outs are precut no saw cutting at finish.

Test Cap protects stub-outs during & after testing.

No Trap Adapter to primer & cement on stub-out.

No deep escutcheon needed to cover the adapters.

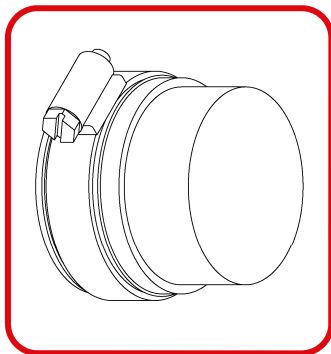

No primer or glue drips and leaks into cabinets.

No need to tighten up old trap adapters, just Push

Push joint will hold 10ft. head pressure without leaking.

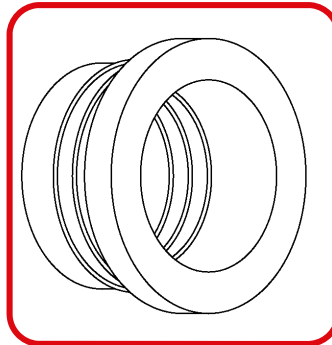

5 to 10 times faster installation.
